Beginning in February 2018, our monthly class schedules will feature class topics most frequently requested by our students.

* **Student's Choice Classes have their Topic established at a student's request**, on a first come – first serve basis, for training that is not scheduled in our current class calendars for Chesapeake, Yorktown and Williamsburg. The list of acceptable class topics is in the Computer Concepts **Essential Class Descriptions** document. Unique, unlisted topics will have to be authorized by the company Training Director.

Essential Class Descriptions lists all current class training topics. Paper versions can be found in each of our Computer Concepts stores in Chesapeake, Yorktown and Williamsburg. Digital versions are ready to download or view at: www.mycomputerconcepts.com On the homepage go to Computer Training > Class Resources > Class Descriptions or Class Schedule. Store locations and phone numbers are listed on the reverse side of this page.

One-On-One class training is available for all Apple and Windows classes listed in the Essential Class Descriptions document. Valued Customer Card owners receive a \$25 discount for each One-On-One class session purchase.

To request a Student's Choice Class, schedule a One-On-One session or present a question, send an email to Dick Smith, the Training Director, at: dsmith@mycomputerconcepts.com

New Computer Classes

- New Apple iOS 12 for iPads and iPhones 201
- New Apple macOS 10.14 Mojave for Macs 201

December 2018 Chesapeake Training

The new classes are for users who have experience with macOS and iOS devices. Inexperienced students who wish to take the new 201 level classes should first take the New User 101 classes offered each month.
