**BE AWARE OF ONLINE AND PHONE SCAMS**

The increased embrace of computers for remote work, retail purchases, and social connections has created a vast new population to target for online fraud. Such scams jumped 25 percent in 2021, according to the TransUnion credit bureau.

These factors just highlight a larger, grim picture. A recent AARP survey found that Nine of Ten Americans (229 million people) encountered a fraud attempt in the past year and that One in Six (33 million people) lost money as a result. A separate poll found that almost 60 million Americans lost money to phone scams last year. AARP is a very good

source of ways to prevent being scammed.

Call Computer Concepts if you think your computer has been scammed.
