

# Apple MacBook Air

## MacBook Air. Redesigned. Redefined.

Supercharged by the next-generation M2 chip, the redesigned MacBook Air combines incredible performance and up to 18 hours of battery life into its strikingly thin aluminum enclosure.<sup>1</sup>

### Key Features

- M2 chip with next-generation CPU, GPU, and machine learning performance
- Faster 8-core CPU and up to 10-core GPU to power through complex tasks<sup>2</sup>
- 16-core Neural Engine for advanced machine learning tasks
- Up to 24GB of faster unified memory makes everything you do super fluid
- Up to 20 percent faster for applying image filters and effects<sup>2</sup>
- Up to 40 percent faster for editing complex video timelines<sup>2</sup>
- Go all day with up to 18 hours of battery life<sup>1</sup>
- Fanless design for silent operation
- 13.6-inch Liquid Retina display with 500 nits of brightness and P3 wide color for vibrant images and incredible detail<sup>3</sup>
- 1080p FaceTime HD camera with twice the resolution and low-light performance
- Three-microphone array focuses on your voice instead of what's going on around you
- Four-speaker sound system with Spatial Audio for an immersive listening experience
- MagSafe charging port, two Thunderbolt ports, and headphone jack
- Backlit Magic Keyboard and Touch ID for secure unlock and payments
- Available in midnight, starlight, space gray, and silver
